

# X track . . .

. . . is the all season, high performance track for your Pisten Bully. With the **X track** it is possible to drive across wooded areas, meadows or swampland.

The **X track** is a high performance track for the snow as well. During its development great care was taken to ensure good stability and grip pressure in the snow.

The **X track** provides traction when pulling snowmobile trail grooming drags in hard, icy snow conditions yet will not damage pavement when crossing roadways.

The **X track** cleat combines a steel core with a high quality vulcanized rubber encasement. The rubber encasement has a herring bone structure that gives the cleat excellent grip.

The **X track** features the standard *Pisten Bully* belt and cleat design. Component replacement enables cost effective repairs in contrast to endless track systems.

Model	Cleat height	Cleat width
TrailBully	3.39" (86 mm)	31.5" (800 mm)
EDGE Trail	3.39" (86 mm)	31.5" (800 mm)
PistenBully 100	3.39" (86 mm)	31.5" (800 mm)
Canyon	3.39" (86 mm)	31.5" (800 mm)
